

Law at the speed of life

Anthony Harper

Finance and Operations Manager

- Christchurch
- Full Time
- Reporting to CEO
- Drive business efficiencies and commercial performance

Leading our Finance, Information Technology and Administration Support teams, you will provide strong financial support to our CEO and Board while performing a crucial role in aligning the operational functions of our firm.

This role will be pivotal in ensuring the functions within its remit are collaborative, customer centric, fit for purpose and innovative. You will need to be a leader of leaders with the capability to support your team leaders in performing to the highest level.

Acting as the "glue" between the authors, support and finance functions of the business, this role requires the ability to see past the numbers to understand data structures, processes and procedures necessary to ensure the efficient operations of the business.

Organised with robust communication skills, you will need to build strong working relationships with internal stakeholders and ensure outcomes are delivered through a collaborative approach.

This role requires a qualified Chartered Accountant who has broad experience in the management of additional functions, including information technology and corporate support. There will be the added responsibility by way of oversight of the Trust accounting requirements of the practice.

INSIDE Recruitment is our recruitment partner for this position and are managing the process. To apply in confidence now, click [here](#) or call Dale Gray on 09 913 0172.

Applications close on 11 September 2020. Emails will be electronically acknowledged and further correspondence may be via email.
